Visualize key HR data and gain valuable insights into your business. LeaveBoard provides access to the human capital analytics to run your business efficiently, so your managers will be able to make the best decisions about issues that probably have slipped their minds so far.

Gain insights into your workforce

Get an overview of annual leaves allowances, the balance of time off taken and remaining with the HR reporting software. The monthly HR reports are two taps away.

Tailored HR Reports

With a few clicks, you can generate a valuable custom HR report to make better decisions regarding hiring, promotion or planning. The monthly management reports are automatically generated.

Filter and focus

The powerful filtering tool makes it easy to gain insights into the company workforce. It's ultra fast and super accurate. Need to focus on a particular user, or type of leave? With LeaveBoard it's possible, whenever you need to.

Real-time HR data

The dynamic reports allow you to analyze up-to-date vacation, sick or other types of leave that have been taken in a given month. Make this report as exhaustive as you want.

Sick leave reporting

Tracking sick leave across the entire company helps to spot trends and identify absenteeism. These reports are available to download in excel format when you need them.

“Wow. Generating a custom report takes 10 seconds. The HR software helps supervisors and analysts to make better management decisions. No more business disruption, overtime or staffing issues.”

Benefits

The HR reporting software helps to:

- Access centralized workforce data in one view
- Leverage valuable day-to-day critical insights
- Gain knowledge into emerging trends
- Take fast, proactive action
- Plan growth based on labor patterns
- Stay up to date on your employment issues

What is LeaveBoard?

LeaveBoard is a simple HR software solution that's simple to deploy, easy to manage and remarkably cost-effective. We focus on providing simple HR solutions to businesses worldwide. Our product enables small and medium companies to automate many of the administrative headaches that they experience as they scale, and gives those who run businesses more of what they need the most... time! The robust and scalable SaaS platform automates HR admin, tracks time off and stores safely employee data and records.
